**ACCOMPLISHMENT REPORT**

**Name of Employee:** Cydney B. Delos Reyes

**Designation/Position:** Administrative and Records Officer

**Office/Section:** SMILE Taytay Training Institute

**Covered Period:** July 15 - 31, 2026

**I. INTRODUCTION**

For the period of July 16–31, 2026, I continued to provide administrative and operational support to the programs and activities of the SMILE Taytay Training Institute. During this period, I assisted in program coordination, applicant assessment, technical support, and event-related activities. My assigned responsibilities included participating in coordination meetings, conducting applicant interviews, providing technical assistance for office equipment, and supporting the successful implementation of institutional programs and activities. These tasks contributed to the continuous improvement of office operations, effective program management, and delivery of quality services to stakeholders.

**II. NARRATIVE OF ACTIVITIES AND ACCOMPLISHED DELIVERABLES**

- **Coordination Meeting with DICT for the GVA Program**

I participated in a coordination meeting with the Department of Information and Communications Technology (DICT) regarding the implementation and preparation of the GVA (General Virtual Assistance) Program. The meeting focused on discussing program updates, coordination requirements, and possible areas of collaboration to ensure the smooth implementation and delivery of the training program. This activity helped strengthen communication and alignment between partner organizations and SMILE Taytay Training Institute.

- **Technical Support and Laptop Troubleshooting Assistance**

I provided technical support by troubleshooting and fixing a laptop unit used for office-related activities. I performed basic diagnostics, identified the issue, and applied the necessary troubleshooting steps to restore the functionality of the device. This task helped ensure the continuous availability of working equipment needed for administrative and operational tasks.

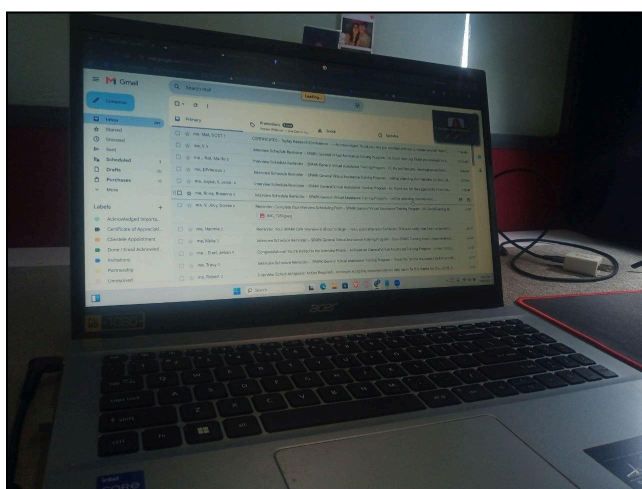

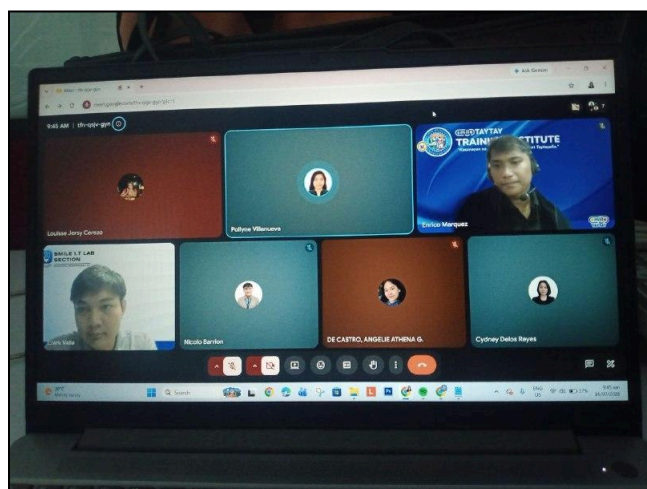

- **Assistance as Resource Speaker Introduction for the Taytay Community Research and Innovation Summit (TCRIS)**

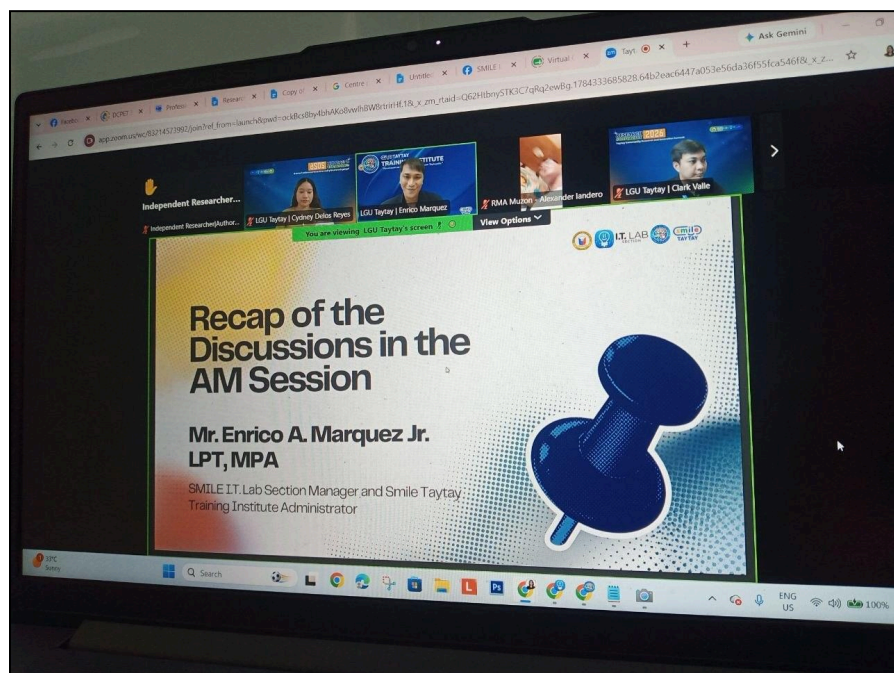

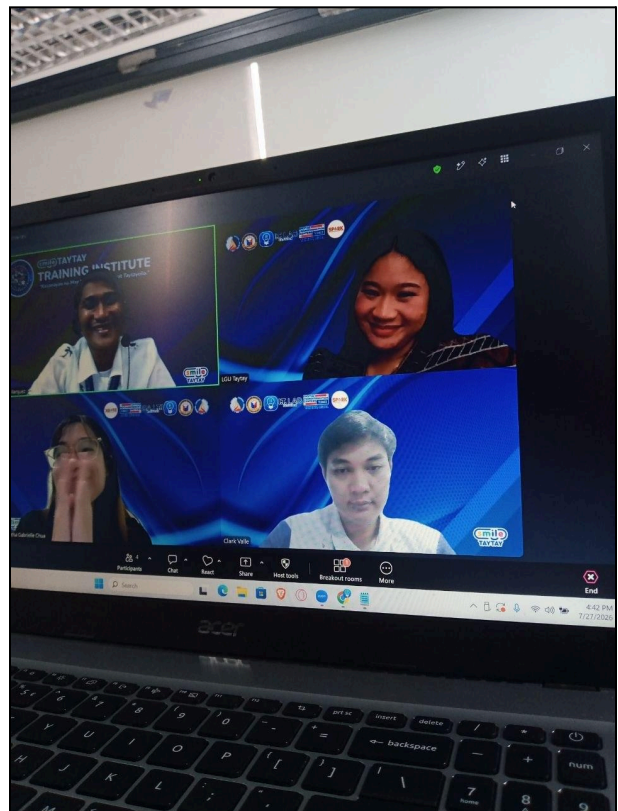

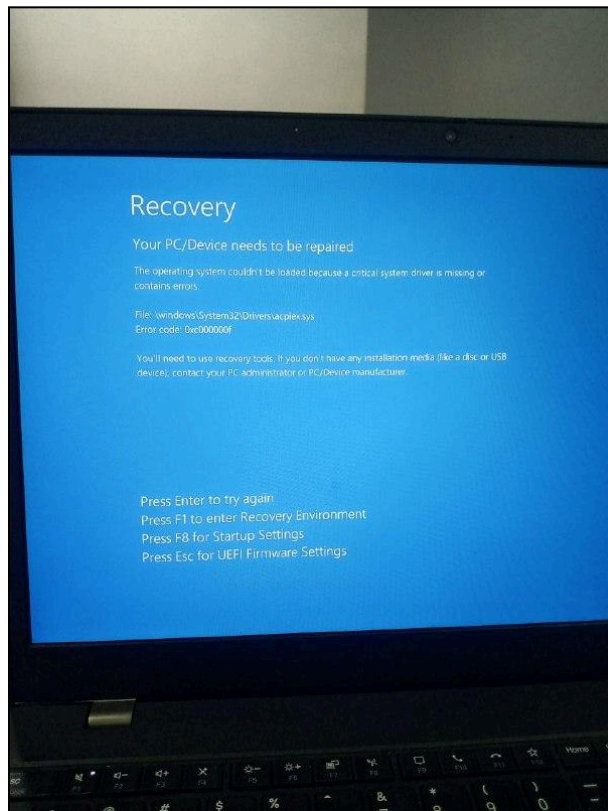

I assisted during the Taytay Community Research and Innovation Summit (TCRIS) by serving as the introduction facilitator for the resource speaker. I prepared and delivered the introduction to properly acknowledge the speaker's background and expertise before the session. This activity contributed to the smooth flow of the program and supported the successful conduct of the research conference.

- **Applicant Interview and Assessment for the GVA Program**

I assisted in the screening and assessment process for applicants of the GVA Program by conducting interviews with interested participants. I gathered applicant information, assessed their qualifications and readiness for the program, and documented relevant details for evaluation and program selection. This activity supported the identification of suitable participants and helped ensure proper enrollment management.

### III. ATTACHMENTS / PHOTO DOCUMENTATION

#### IV. LIFELONG LEARNING AND TRAINING PROGRAMS PARTICIPATED

| Title of Training/Program           | Organizer /Facilitator                       | Date         | Training Hours |
|-------------------------------------|----------------------------------------------|--------------|----------------|
| <b>Visual Graphic Design NC III</b> | High Performance International Academy, Inc. | July 1, 2026 | 501            |

#### V. SUGGESTIONS AND RECOMMENDATIONS

I recommend that SMILE IT Lab organize a basic workshop on AI automation. To make this successful, we can invite a resource speaker or guest lecturer to teach the sessions. The speaker can introduce simple AI tools that are easy to use for everyday tasks. This beginner-friendly approach will help participants understand how AI works and how it can make their daily work or personal projects much easier.
