THE HOST TRAINING ESTABLISHMENT

Location of the Host Training Establishment

The Municipality of Taytay is one of the local government units in the Province of Rizal responsible for implementing government programs, delivering public services, and promoting community development for its residents. The municipality provides various administrative and public service functions that contribute to the welfare and development of the community.

The municipal government operates under the provisions of the Local Government Code of the Philippines, which defines the powers, responsibilities, and organizational structure of local government units in the country. It is committed to providing efficient public service, maintaining organized operations, and supporting programs that benefit the people of Taytay.

For my practicum assignment, my Host Training Establishment (HTE) is the Municipal Government of Taytay, Province of Rizal. I was assigned to the Smile IT Lab Section, where I am currently rendering my on-the-job training and gaining practical experience related to information technology, technical support, and office operations in a professional work environment.

Profile of the Host Training Establishment

The Municipality of Taytay is a first-class and densely populated municipality in the Province of Rizal, Philippines. Known as the “Woodworks and Garments Capital of the Philippines,” Taytay is recognized for its thriving local industries and strong economic growth. The municipality has also been awarded by the National Competitiveness Council as one of the Most Competitive Municipalities in the Philippines.

The municipality is responsible for implementing government programs, providing public services, and promoting the welfare and development of the community. It manages various offices and departments that support administrative operations, public assistance, infrastructure, education, health, and community development programs for the residents of Taytay.

As part of its commitment to innovation and efficient public service, the municipality also supports technology-related services and digital operations through different sections and departments, including the Smile IT Lab Section where I am currently assigned for my practicum training.

Vision and Mission Statements of the Host Training Establishment

VISION:

“To be recognized as a center of excellence in training and capacity development programs for inclusive and sustainable socioeconomic development in the Municipality of Taytay”

MISSION:

“To provide accessible, needs-responsive, and industry-oriented technical training and capacity-building programs promote socioeconomic development in the Municipality of Taytay.”

Goals and Objectives of the Host Training Establishment

The Municipality of Taytay aims to provide quality public service and implement programs that contribute to the growth and development of the community. Through its different offices and sections, the municipality continuously promotes efficient governance, community involvement, and sustainable socioeconomic progress.

Specifically, the host training establishment aims to:

1. Strengthen industry partnerships and collaboration by maintaining mutually beneficial relationships with local and national industries
2. Mobilize job placement mechanisms, framework, and programs to ensure employability of the institution's graduates.
3. Implement a dynamic and responsive curriculum tailor fit to the needs of the industry and stakeholders.
4. Leverage industry, stakeholders, and community partnerships and linkages to provide holistic learning and introduce latest industry practices for the students and graduates of the institution.
5. Expand and innovate training programs, services, and systems to cater effectively and efficiently to more Taytayenos for socioeconomic development.

Organizational Structure of the Host Training Establishment

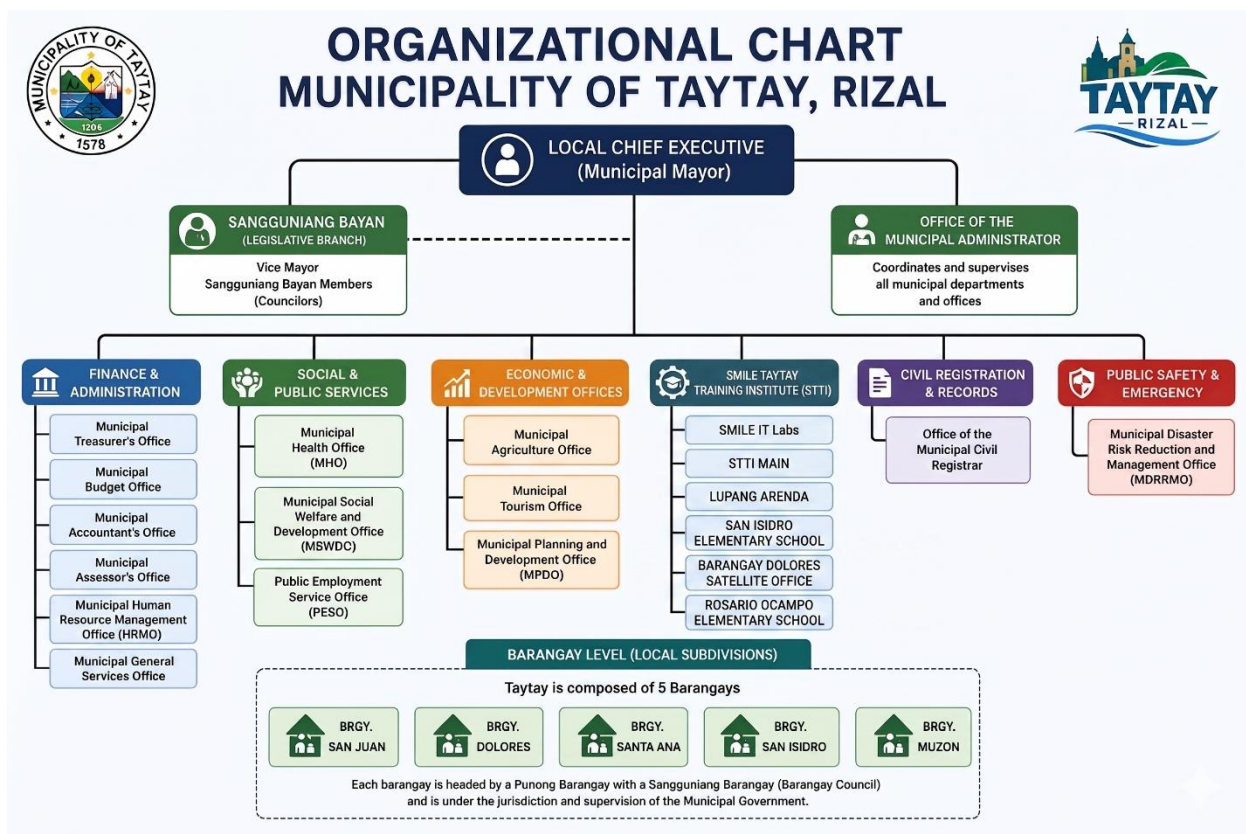

Figure A. Organization structure of DOLE

The organizational chart of the Municipality of Taytay illustrates the comprehensive administrative framework governing the local government unit. Spearheaded by the Local Chief Executive (Municipal Mayor), the organizational structure is designed to deliver unified public services, foster economic growth, and maintain order across the municipality. It functions as the primary blueprint for how local governance is systematically delegated to serve the community effectively.

The municipal government operates as a dynamic hub for public service and community development. Daily administrative operations are systematically distributed across specialized departmental clusters, ranging from financial management and public safety to social welfare and infrastructure development. It serves as an essential framework that allows local officials to address the diverse needs of constituents, providing regulatory oversight, essential civic services, and continuous community support. By maintaining this structured hierarchy, the municipality ensures that all public resources are managed efficiently and transparently.

THE TRAINING AREA

Department/Unit Function

The Smile IT Lab Main Unit of the Municipality of Taytay plays an important role in providing technical support and information technology services within the municipal government. This unit is responsible for assisting in the maintenance and troubleshooting of computer systems, supporting digital operations, and ensuring the proper functioning of IT-related equipment and resources used in different municipal offices.

In addition, the Smile IT Lab Main Unit helps in managing basic system updates, assisting employees with technical concerns, and supporting the municipality's transition toward more efficient and technology-driven public service delivery. Through these functions, the unit contributes to improving workflow efficiency, communication, and overall productivity within the local government.

Overall, the Smile IT Lab Main Unit plays a vital role in strengthening the municipality's technological capacity, ensuring that digital tools and systems are effectively utilized to support public service operations and the needs of the community.

Organizational Structure of the Department

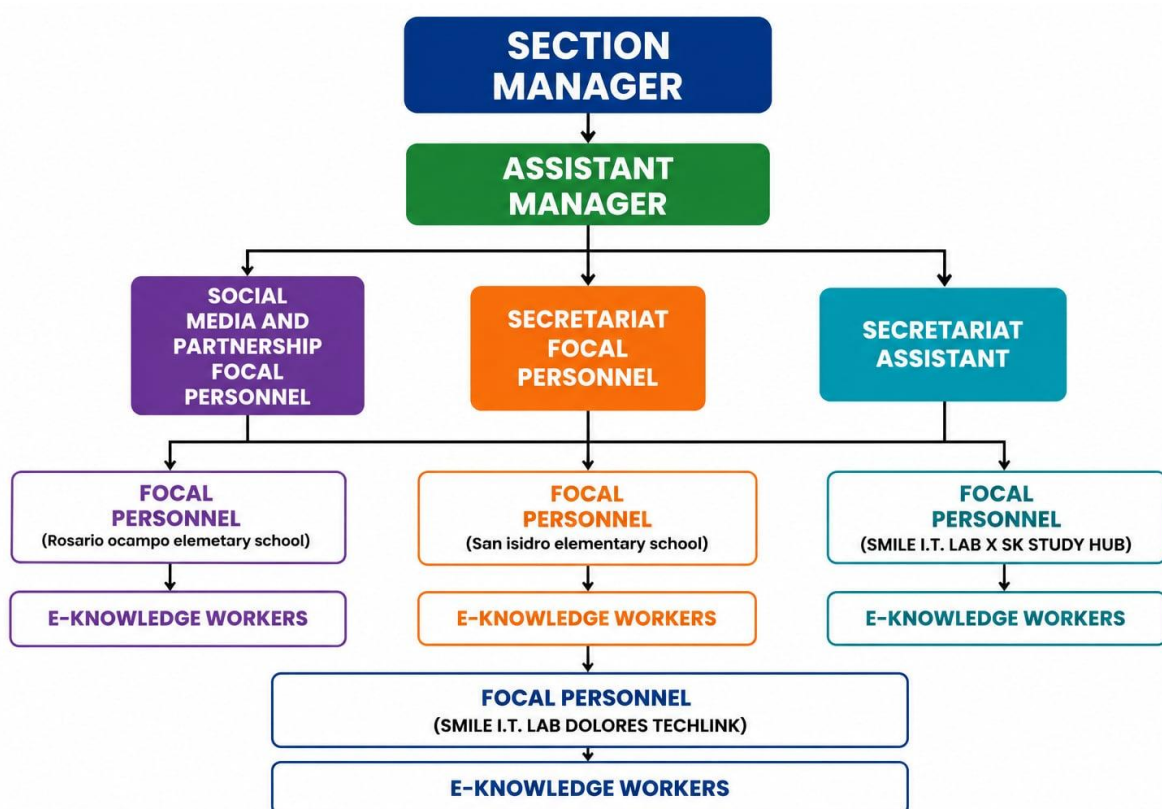

Figure B. Organizational Structure of the Department

The SMILE I.T. Lab Digital Transformation Center follows a clear hierarchical organizational chart. At the top of the structure is the Section Manager, who oversees the entire department. Directly below them is the Assistant Manager, who helps facilitate leadership duties. Supporting the core management team are specialized roles handling communications and administration, specifically the Social Media and Partnership officer and the Secretariat, which is further supported by an Assistant Secretariat. The operational core of the center is divided into four distinct branches, each overseen by designated Focal Personnel. These branches are located at Rosario Ocampo Elementary School, San Isidro Elementary School, the SMILE I.T. Lab & SK Study Hub, and the SMILE I.T. Lab Dolores Techline. Finally, each branch's Focal Personnel directly manages a team of E-Knowledge Workers, who serve as the foundational workforce at every location.

Facilities and Their Descriptions

The Smile IT Lab Main Unit of the Municipality of Taytay is equipped with facilities that support its technical and administrative functions. The unit is provided with computer workstations for staff and interns, which are used for encoding, troubleshooting, system support, and other IT-related tasks. These workstations are also connected to essential software systems and internet access to ensure efficient delivery of technical services.

In addition, the unit is equipped with printers and other peripheral devices used for documentation, report generation, and daily office requirements. A designated working area is also provided where IT personnel and interns can collaborate in addressing technical concerns and supporting the digital operations of the municipal offices.

The Smile IT Lab Main Unit also maintains organized spaces for equipment and system resources to ensure proper storage and management of IT tools and materials. These facilities collectively provide a functional and efficient working environment that supports the municipality's goal of delivering reliable and technology-driven public service.

THE TRAINING EXPERIENCE

Overall Summary of the Task Assigned and Performed

Throughout my practicum at the Smile IT Lab Main Unit of the Municipality of Taytay, I was assigned various technical and administrative tasks that enhanced both my professional and practical IT skills. My responsibilities primarily included data encoding, system record updating, PC reformatting, computer setup and assembly, document scanning, and preparation of presentation materials. I also assisted in routing office documents, organizing files, and supporting daily office operations to ensure efficient workflow within the department.

In addition to technical tasks, I provided assistance to applicants and clients by addressing their concerns and guiding them through office procedures, which helped improve my communication and customer service skills. I also participated in meetings and collaborated with the team and supervisors to better understand workplace coordination, departmental processes, and task management.

Throughout the practicum, I consistently rendered overtime work to complete assigned responsibilities such as encoding, scanning, system setup, and presentation preparation. These experiences strengthened my technical knowledge in computer troubleshooting, hardware setup, system maintenance, and data management, while also improving my organizational skills, time management, teamwork, adaptability, and sense of responsibility in a professional work environment.

Overall, my practicum experience provided me with valuable hands-on learning opportunities that allowed me to apply my academic knowledge in real workplace situations. It helped me develop confidence, professionalism, and a deeper understanding of both IT-related and administrative functions within a government office setting.

Weekly / Daily Journal

Week 1 March 26, 2026: 9 Hours

My tasks for the first week focused on being introduced to the team and familiarizing myself with the workflow of the Smile IT Lab Main Unit of the Municipality of Taytay. I attended an orientation about the department's functions and observed daily operations in the office. I also performed PC reformatting and basic system setup as part of technical support tasks, which helped me apply my basic IT knowledge in actual workplace settings. Overall, this week helped me gain initial experience in technical support and understand the importance of proper procedures in handling system-related tasks.

Week 2 March 30 - 31, 2026: 18 Hours

During the second week of my practicum at the Smile IT Lab Main Unit of the Municipality of Taytay, my tasks focused on PC reformatting, system setup, and data encoding activities. I also handled system record updates and documentation to support daily office operations. I assisted in encoding and organizing data in the system, which helped improve my accuracy and efficiency in data management. I was also given the opportunity to assist applicants by addressing their concerns and guiding them through the required processes, which enhanced my communication and customer service skills. Additionally, I rendered overtime work to complete additional encoding tasks, showing commitment and productivity in completing assigned responsibilities. Overall, this week helped me further develop both my technical and interpersonal skills through hands-on experience in system maintenance, data management, and public assistance.

Week 3 April 6 – 8, 2026: 27 Hours

During the third week of my practicum at the Smile IT Lab Main Unit of the Municipality of Taytay, my tasks focused on data encoding, system updates, client assistance, and participation in meetings with the team and supervisor. I performed encoding and updating of records in the system, which helped improve my accuracy and efficiency in data management. I also attended meetings where I learned about departmental updates, work plans, and

proper coordination within the team, enhancing my communication and understanding of workplace processes. In addition, I assisted clients through the help desk by addressing concerns and providing basic technical support. I was also tasked to create presentation materials for review program sessions, which developed my skills in content organization and presentation design. Overtime work was also rendered to complete assigned tasks, showing commitment, productivity, and proper time management. Overall, this week helped me improve my technical, communication, and organizational skills through hands-on experience in both administrative and IT-related tasks.

Week 4 April 13 - 16, 2026: 36 Hours

During the fourth week of my practicum at the Smile IT Lab Main Unit of the Municipality of Taytay, my tasks mainly focused on data encoding, system setup, and the creation of presentation materials for assigned topics. I consistently performed encoding and updating of records in the system, which helped maintain accurate and organized data management. I also assisted in setting up computer units, including basic system configuration and preparation, which strengthened my technical skills in hardware and system setup. In addition, I was tasked with designing and improving presentation slides (PPT), which enhanced my creativity and ability to organize information effectively for review materials and technical discussions. Overtime work was also rendered to complete encoding, system setup, and presentation tasks, demonstrating productivity, responsibility, and good time management. Overall, this week helped me further improve my technical, organizational, and presentation skills through continuous hands-on experience.

Week 5 April 20 - 23, 2026: 36 Hours

During the fifth week of my practicum at the Smile IT Lab Main Unit of the Municipality of Taytay, my tasks focused on data encoding, system setup for SPES use, document scanning, and preparation of presentation materials. I performed encoding and updating of records in the system to ensure accurate and organized data management. I also assisted in setting up computer units for SPES, including basic configuration and preparation, to ensure they are ready for use. In addition, I scanned documents and books for digital filing and record-keeping, which improved my skills in document management and organization. I also helped encode and prepare presentation (PPT) materials as part of documentation tasks, enhancing my technical and creative abilities. Overtime work was also rendered to complete encoding, scanning, and presentation-related tasks, demonstrating productivity, dedication, and effective time management. Overall, this week helped me further develop my technical, documentation, and organizational skills through continuous hands-on experience in office and IT-related tasks.

Week 6 April 27 – 30, 2026: 36 Hours

During the sixth week of my practicum at the Smile IT Lab Main Unit of the Municipality of Taytay, my tasks focused on data encoding, document routing, presentation preparation, and basic computer assembly. I performed encoding and updating of records in the system to ensure accurate and organized data management. I also prepared and edited presentation (PPT) materials for documentation purposes, which enhanced my skills in organizing and presenting information effectively. In addition, I routed office documents to designated personnel, ensuring proper flow and coordination of administrative processes within the office. I was also assigned to assemble computer units, including basic hardware setup and configuration, which strengthened my technical skills in computer assembly and troubleshooting. Overtime work was also rendered to complete encoding and other assigned tasks, demonstrating productivity, commitment, and time management. Overall, this week helped me further improve my technical, documentation, and organizational skills through hands-on experience in both IT and administrative tasks.

Week 7 May 4 - 7, 2026: 37 Hours

During the seventh week of my practicum at the Smile IT Lab Main Unit of the Municipality of Taytay, my tasks focused on data encoding, document routing, presentation preparation, and computer unit assembly. I consistently performed encoding and updating of records in the system to maintain accurate and organized data management. I also prepared and edited presentation (PPT) materials for documentation purposes, which helped improve my skills in organizing and presenting information effectively. In addition, I assisted in routing office documents to designated personnel to ensure proper workflow and coordination within the office. I was also tasked to assemble computer units, including basic hardware setup and configuration, which strengthened my technical knowledge in computer assembly and troubleshooting. Overtime work was also rendered to complete encoding and other assigned tasks, demonstrating commitment, productivity, and good time management. Overall, this week helped me further enhance my technical, organizational, and documentation skills through continuous hands-on experience in both IT and administrative tasks.

Week 8 May 11 - 6, 2026: 45 Hours

During the eighth week of my practicum at the Smile IT Lab Main Unit of the Municipality of Taytay, my tasks mainly focused on data encoding, record updating, and preparation of presentation materials for documentation purposes. I consistently performed encoding and updating of records in the system, which helped improve my efficiency and accuracy in managing data. I also prepared and edited presentation (PPT) materials, which enhanced my presentation, documentation, and organizational skills. Throughout the week, I continued to develop my understanding of office procedures, data management, and workplace responsibilities through continuous hands-on experience. In addition, I rendered overtime work to complete assigned encoding and scanning-related tasks, demonstrating commitment, consistency, and effective time management in accomplishing my responsibilities.

Week 9 May 18 - 21, 2026: 40 Hours

During the final week of my practicum at the Smile IT Lab Main Unit of the Municipality of Taytay, my tasks continued to focus on data encoding, record updating, and preparation of presentation materials for documentation purposes. I consistently performed encoding and updating of records in the system, which further improved my efficiency, accuracy, and attention to detail in handling data management tasks. I also prepared and edited presentation (PPT) materials, which enhanced my creativity, organization, and technical documentation skills. Throughout the week, I applied the knowledge and skills I gained during my practicum by completing assigned tasks responsibly and efficiently. I also rendered overtime work to finish additional encoding and scanning-related tasks, demonstrating dedication, commitment, and effective time management. Overall, my final week allowed me to strengthen both my technical and professional skills while gaining valuable workplace experience in the IT and administrative field.

NARRATIVE REPORT FOR THE MONTH OF MARCH

In the month of March 2026, I joined my on-the-job training (OJT) in an organization that was designated to take care of the technical and administrative operations. I was assigned to work in a department that maintained computer systems and data, as well as supporting applicants. My internship began on March 26, 2026, and I was welcomed to the team and oriented on the functions, workflow, and policies of the department. This was the second time I was exposed to a real working environment and this has enabled me to put my academic knowledge into practice and acquire practical skills.

During the first week of my internship, I was given different duties to do with technical support and administrative help. During my first day, I was oriented about the team and their roles and responsibilities. I also attended an orientation where I was made aware of how the department works and the operations. I also did PC reformatting and basic system setup which included re-installation of the operating systems and getting computers ready to use. During the next several days I continued to do PC reformatting jobs and was also given data encoding duties. These activities involved me correctly entering and updating information in the system. Moreover, I was able to support the applicants by helping them with their concerns and taking them through the necessary procedures. I also made overtime work to finish encoding work, which showed my dedication to the responsibilities that I was assigned. The tools and technologies that I employed in these activities were the computer systems, tools of installing the operating system and the data encryption software like spread sheets and internal databases.

Through my internship, I have acquired some important knowledge and skills in the tasks that have been allocated to me. I also developed my technical ability in maintaining a computer, troubleshooting, and installing an operating system through PC reformatting and system setup. I also got to know that proper procedures should be followed to make sure that systems are running well. Based on data encoding activities, I have been able to gain accuracy, attention to detail, and information processing efficiency. I also improved my time management skills, especially when completing tasks within deadlines and during overtime work. The experience of assisting applicants assisted me to develop communication and interpersonal skills. I got to know how to communicate professionally, answer questions, and give directives. I also learned to be flexible and a team player since I had to collaborate with the various members of the department. In general, I had an opportunity to use my academic experience in the field of computer systems servicing in the real-life context, which reinforced my technical and soft skills.

The first few days of my internship were characterized by nervousness and lack of confidence as I became accustomed to a new environment. Being my first time in a working place, I was unable to communicate and work effectively. The other difficulty that I faced was ensuring that data encoding is accurate since errors may compromise the records in the system. To counter this, I was more detail oriented and checked my work twice before submitting it. I also experienced time pressure in dealing with several tasks particularly in the case of overtime work. I was able to cope with this by planning my activities, focusing on key activities, and being on track. These struggles taught me to be patient, responsible, and to improve constantly. In general, I am pleased with the experience I have acquired as an intern in the month of March. The activities that I was put to were also pertinent to my discipline and enabled me to acquire technical as well as interpersonal skills. The work atmosphere was also favorable since my colleagues supported me and assisted me to settle in my duties. This internship experience helped me to understand more about the expectations of working in the workplace, and it also made me interested in completing a career in the IT sector, specifically in technical support and system maintenance. It also helped me to develop the personal growth by enhancing my confidence, discipline and work ethic.

To sum up, my experience as an intern during the month of March was an educational experience. I could do both technical work like reformatting the PCs and setting up the system and administrative work like encoding data and helping the applicants. The experiences improved my technical knowledge, communication and my flexibility to work in a professional setting. To new interns, I would suggest that they should be proactive, ready to learn, and challenge

themselves. A proper attitude and constant practice may also go a long way towards a successful internship experience. On the whole, this internship has equipped me with the necessary skills and knowledge that I will use in my future profession.

NARRATIVE REPORT FOR THE MONTH OF APRIL

It was on the same organization that I was assigned to deal with technical and administrative operations that I was continuing with my on-the-job training (OJT). I was assigned to work in a department that deals with computer system support, data management and processing of documents. During this month, I learned more about the working process and the tasks and expectation at the workplace. I could do more work and assume more roles than my first month, and I was able to further develop my technical and professional skills in a real working environment.

In April, I was given a diverse set of activities connected with the sphere of technical support and administration. My main role was data encoding whereby I consistently input and updated data in the system with accuracy and efficiency. I also joined team and management meetings, which provided me with an opportunity to observe the discussions, planning, and coordination in the department. I also assisted in the help desk services by helping clients with their problems and assisting them with simple technical problems. I was equally charged with the responsibility of creating and designing presentation materials (PPT) and some of which were associated with review programs like CSE and UPCAT and documentation assignments. Moreover, I did routing of documents, whereby documents within the office were routed to the right people to be processed. My scanning also involved scanning document and book so that the files can be well organized and records kept.

Technically, I was engaged in assembling of computer units, installation of PCs in programs like SPES which involved simple assembling and installation of PCs. The majority of these activities included the utilization of computer systems, spreadsheet software, presentation tools and simple hardware components. I also made extra time work on a few days to finish given tasks, particularly the encoding, scanning and documentation.

In these experiences, I have acquired a very broad base of technical and soft skills. The data encoding activities enhanced my accuracy, attention to detail and effectiveness in handling information. The process of developing the presentations helped me to be more creative and capable to organize the presentation of technical concepts. Helping on the help desk gave me the opportunity to enhance my communication and interpersonal skills as I learnt how to provide help to the clients in a professional manner and how to respond to the concerns of the clients. Attendance during meetings provided me with an understanding of the teamwork, planning and decision making process in an organization. Also, the experience of assembling computers, installing PC units helped to strengthen my technical knowledge on the topic of assembling computers and filling PC units. Routing of documents and scanning were also helpful in making me acquire organizational and time management skills. So, in general, I could combine my academic knowledge with the real-life scenarios and improve my confidence and competence.

In the month of April, I had to face a number of challenges when completing my tasks. One of the primary challenges was the taking of various duties within a given time when carrying out the encoding, scanning and documentation duties concurrently. To conquer this I have learnt how to prioritize, manage my time well and also remain organized. The other issue was to be accurate in the data encoding and document processing since errors may impact the system and workflow. I dealt with it by turning out to be more detail-oriented and always going through my work before submitting it. I also had difficulties in dealing with technical problems like assembling computers and troubleshooting simple problems. These I overcame by seeking the advice of my supervisors as well as by practicing the tasks that were given to me. These experiences helped me to understand that being patient, flexible, and open-minded in a work setting is crucial.

In sum, I would rate my experience as an intern in the month of April as being satisfactory. The assignments given to me were purposeful and useful to my career as they enabled me to develop not only technically but also professionally. The environment was also conducive and my colleagues and supervisors helped me to get the required guidance whenever I was in need and this helped me to improve on my performance and confidence.

This experience in the internship helped me to enhance the interest I had in the IT field especially in the areas like technical support, data management and maintenance of the system. It also helped me to grow personally by

enhancing my discipline, responsibility and work ethic. I felt more confident that I can work and communicate with other people in a professional environment. To sum up, the month of April was fruitful and enriching as far as my internship experience was concerned. I could do several assignments which included: encoding data, supporting the help desk, routing documents, scanning, creating presentations and setting up computers. These experiences helped me to improve my technical skills, communication skills, and versatility within a real-life working environment. To other future interns I would advise that one be proactive, responsible, and willing to learn new things. One should also keep well organized and be in a positive mindset when confronting the challenges. In general, this internship has equipped me with pertinent knowledge and skills that will come in handy in my future profession in the sphere of Information Technology and Computer Engineering.

NARRATIVE REPORT FOR THE MONTH OF MAY

My internship month was in May of 2026 and my last day of training was May 21, 2026. It was an office setting position where I was responsible for administrative and technical duties in the areas of data administration, documentation, and simple computer hardware support. Across my internship I was given a firsthand experience of operations in the work place, giving me the opportunity to apply my academic learning as well as enhance my professional skills. The internship was an enriching experience which helped me in my growth as a student and future professional.

During my internship I was given a number of office and technical tasks. I was responsible for one of the primary tasks of coding in the system and updating records. This included organizing, registering and keeping up-to-date information on company records and databases. It was expected that I would make sure that all encoded data would be complete, accurate and up-to-date. Another that I was given for documentation was to prepare and edit PowerPoint presenting materials. To support information and document office needs I helped to organize information and create presentation slide designs. Creativity, attention to detail and knowledge of presentation software were all required for this task.

I also had to be responsible for distributing documentation to specific staff for application and signatures. This task included handling and coordinating documents within the proper context to ensure of a proper flow and communication in the office. I also helped to put together computer units such as basic setup and configuration. In this task I was responsible for handling over the computer and for carrying out simple technical procedures in computer assembly and set up. During my internship there was also overtime to complete more encoding and scanning projects. The extra work got me to help the office to get things done on time and to finish up the pending work efficiently.

I found my internship to be a learning experience that has benefited me technically and personally. As I worked on various data encoding projects, my typing speed, accuracy, attention to detail, and organizational skills were developed. In addition, I was taught about privacy and proper bookkeeping for the company. Creating PowerPoint presentations improved my creativity, communication and presentation skills to communicate information clearly and professionally. I was also more confident in the tools and applications of the office. I honed communication, coordination, and teamwork skills as a part of the job of routing office documents. I learnt the importance of effective document management in the efficient operation of the office and workplace productivity. I could apply what I had learnt about computer systems and hardware to assemble computer hardware systems and conduct hardware set-up. This experience helped me enhance my technical skills and knowledge on computer assembly procedures. Besides that, working overtime helped me understand discipline, time management, responsibility and also commitment. I developed good time management skills and the ability to work to deadlines.

I had some difficulties, mainly while doing several jobs at the same time and having to complete tasks by certain deadlines during busy days during my internship. Occasionally I had to prepare documents, send them out, and present them within a small allotted timeframe. In order to overcome these challenges, I used to practice correct time management and prioritizing of tasks. I did urgent work first with high accuracy and quality. I also received guidance from my supervisors when there was any doubt as to what to do to better my understanding and performance. Other difficulties I faced were adapting to the real working environment and to office procedures. By observation, communication & ongoing learning, however, I started to become more comfortable & confident in my assigned duties. I learned about patience, versatility, problem solving and professionalism in the workplace from these experiences.

Overall, I am very satisfied with my internship experience. My internship was a great opportunity for me to make great learning and practically apply myself and develop my technical, communication, work ethic, and confidence. Was helpful to develop professional and personal growth with the tasks that I had given. It also gave me the insight into team work, commitment and responsibility in a real working environment. This experience helped to draw me in more and more to continue honing my abilities and to be better prepared for my future career. I thank the company for taking

me in, the supervisor for his guidance, patience and support, and the staff, as well, for their help and patience all along my internship experience. They have been very helpful in making their internship productive, educational and memorable.

Overall, my internship in May 2026 was enriching and enriching. It was a great opportunity to use school intellectual knowledge in the workplace and build critical skills both technical and interpersonal. The tasks that were given to me taught me the importance of being accurate, working in a team, professional and responsible. The internship also helped me in gaining preparation for the future career opportunities by knowing the work practices and responsibilities in the real workplace. The lessons and experiences I learned during this internship will be taken with me in college and as I pursue my goals. As far as a future intern is concerned, I'd mention that they should always be positive, willing to learn and effective at managing their time to get the most out of the internship experience.

CERTIFICATE OF COMPLETION

Republic of the Philippines
Province of Rizal
MUNICIPALITY OF TAYTAY
HUMAN RESOURCE MANAGEMENT OFFICE

CERTIFICATE OF COMPLETION

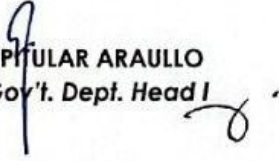

This is to certify that **MS. CYDNEY B. DELOS REYES** of **Polytechnic University of the Philippines** was endorsed and accepted to undertake her On-the-Job Training/Internship at **SMILE IT LAB** from **March 26, 2026** to **May 21, 2026** with work schedule from Monday to Friday, 8:00 a.m. to 5:00 p.m. inclusive 1 hour break.

This further certifies that **MS. DELOS REYES** has comply her duties and responsibilities, thus, completing the **Three Hundred (300) hours** OJT/Internship requirement for the CHED Program: **Diploma in Computer Engineering Technology**.

This certificate is being issued upon the request of the above - named person for any purpose or legal intent it may serve.

Issued this **21st day of May 2026**, Taytay, Rizal.

Re: Internship Endorsement

Dear **Ma'am**,

Greetings from the Country's 1st Polytechnic U!

The Institute of Technology, Diploma in Computer Engineering Technology will undergo their **300-hour On-the-Job Training** this Summer Term of the Academic Year 2024-2025. This initiative is integral to our educational strategy and is designated to provide our students with practical, real-world experience that complements their academic coursework.

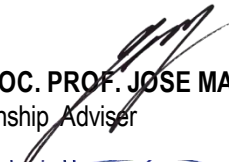

The internship program aims to:

1. **Enhance Practical Skills:** Students will have the opportunity to apply theoretical knowledge in a practical setting, thus bridging the gap between classroom learning and real-world application.
2. **Professional Development:** Students will develop essential soft skills such as communication, teamwork, and problem solving, which are critical for their professional growth.
3. **Industry Exposure:** By working closely with industry professionals, students will gain valuable insights into their chosen field, understand industry standards, and build professional networks.

In this regard, we respectfully endorse our student, **MS. CYDNEY B. DELOS REYES**, undergo on-the-job training from your prestigious establishment. We believe your esteemed organization would be an excellent fit for our internship program. Under your guidance, we are sure that our students will acquire a great deal of experience and expertise, which will benefit your company.

Thank you very much for your kind response and assistance.

Respectfully yours,

ASSOC. PROF. JOSE MARIE B. DIPAY

LETTER OF INTENT

March 24, 2026

MS. MICHELLE G. ORTEGA

Immersion Coordinator

Municipality of Taytay, Province of Rizal

Don Hilario Cruz Avenue, CME Compd.,

Brgy. San Juan, Taytay, Rizal

Dear Madam:

Greetings from the Country's 1st Polytechnic University.

Our students from the PUP Institute of Technology, Diploma in Computer Engineering Technology are interested in the internship opportunity at your prestigious organization. This letter of intent is submitted on behalf of the applicants who are eager to contribute to your organization's mission and vision.

The applicants have demonstrated the possession of a strong work ethic, exceptional academic performance, and problem-solving skills. They are well-prepared for real-world applications in the industry. Additionally, their enthusiasm for learning and adaptability make them an excellent candidate for an internship in your esteemed organization.

We appreciate the opportunity to submit this letter of intent and introduce these applicant/s to your organization. We look forward to hearing from you and discussing how the applicants can contribute to your organization's success.

Attached herewith is the Curriculum Vitae of Cydney B. Delos Reyes for your perusal. Thank you for your time and consideration.

Thank you for your time and consideration.

Respectfully yours,

ASSOC. PROF. JOSE MARIE B. DIPAY

Internship Adviser

NOTARIZED INTERNSHIP AGREEMENT

I, **CYDNEY B. DELOS REYES**, with the consent of my parent/guardian, **DIANA B. DELOS REYES**, a **DCPET** student of the **POLYTECHNIC UNIVERSITY OF THE PHILIPPINES**, with principal address at Anonas St., Sta. Mesa, Manila, hereinafter referred to as “**UNIVERSITY**”, as part of the school curriculum or academic requirement voluntarily agrees to undergo On-the-Job Training (OJT)/Internship Program at the **MUNICIPALITY OF TAYTAY PROVINCE OF RIZAL** with office address at Don Hilario Cruz Avenue, CME Compd., Brgy. San Juan, Taytay, Rizal, hereinafter referred to as “**HTE**”. The On-the-Job Training (OJT)/Internship Program shall start on March 26, 2026 and ends May 21, 2026 and is covered by the following terms and conditions:

1. Scope of the Agreement. This Agreement governs the Internship Program (“Program”) jointly pursued by the Parties in accordance with CHED Memorandum Order No. 104, Series of 2017. Internship refers to the practical application of classroom learning to an actual work environment. It is synonymous to Practicum, Field Practice, or On-the-Job Training; it is not synonymous to Apprenticeship and Learnership.
2. Duration of the Internship. The duration of the Program shall be a total number of *300 hours*. The internship shall be for a maximum of 8 hours between 8:00 am to 5:00 pm, Mondays to Fridays only. The Student Intern shall not be subjected to mandatory overtime (OT) nor be required to work during holidays.
3. Place of Assignment. The duties and responsibilities of the Student Intern shall be performed on the premises of the HTE through onsite learning experiences or other modalities subject to the prevailing government issuances and the rules and regulations of the HTE and the University.
4. Duties and Responsibilities of the Student Intern. The Student Intern commits to:
 - a. Submit the *notarized written consent* of the parent/guardian allowing him/her to undergo the Internship Program with the HTE;
 - b. Undergo the required orientation/training program conducted by the HTE and the University;
 - c. Complete the agreed duration of his/her internship, and if unable to do so, notify the HTE and the University’s OJT Coordinator in writing of his/her intent and reasons to prematurely end his/her internship at least three (3) days before his/her last day of internship;
 - d. Submit required practicum/internship documents within the deadline, including a monthly journal of practicum experiences describing his/her training activities, problem/s encountered, and reflections on the training experience to the OJT Coordinator (if applicable to the course);
 - e. Perform tasks and activities in accordance with the *Internship Plan*;
 - f. Maintain confidentiality, during and after the internship period, of all information, data, and business or trade secrets of the HTE where such information is not within the public domain and is indicated or understood to be confidential and submit a signed Non-Disclosure Agreement prescribed by the HTE as a pre-requisite to participating in the program;
 - g. Use all information and materials received from the HTE for the sole purpose of performing his/her duties under the internship program;
 - h. Respect and comply with the relevant rules and regulations of CHED, the HTE, and the University;
 - i. Be responsible, together with his/her parents/guardian for any and all loss, damage, injury, expense, proceeding, demand, cost, claim, suit or liability incurred arising from his/her own omission or gross negligence in the performance of his/her duties and functions while under internship except such loss, damage, injury, expense, proceeding, demand, cost, claim, suit or liability which may arise by reason of the negligent act or omission of the HTE, its officers, employees, representatives or agents;
 - j. Be responsible, should he/she, in the course of the internship, accidentally or deliberately cause damage to any property or resources owned and operated by or for the HTE, i.e. equipment, machine, apparatus, paraphernalia, device, and other similar procedure thereof, by paying for the cost of its repairs or replacement, whichever is necessary to restore the property into full operations; and
 - k. Report to the HTE’s focal person and the University’s OJT Coordinator for an exit assessment/interview upon completion of the Program.

5. Miscellaneous Provisions

- a. Any activity that involves processing of personal data shall comply with the Data Privacy Act of 2012 (or Republic Act No. 10173), its Implementing Rules and Regulations, and other applicable laws and administrative issuances. The parties shall perform any or all actions necessary to facilitate such processing of personal data, including the execution of contracts, securing of consent, and other similar or related acts
- b. Nothing in this Agreement shall be construed as constituting or evidencing a contract of employment or partnership between the Parties.
- c. The invalidity or unenforceability of any provision of this Agreement shall not affect or impair other provisions that are otherwise valid, binding, and effective.
- d. Any dispute arising from this Agreement shall be resolved amicably between the Parties, and only upon failure of amicable settlement may either Party bring the dispute before the appropriate court or tribunal of competent jurisdiction.

- e. This Agreement shall be governed by and construed according to the laws of the Republic of the Philippines.
- f. This Agreement may be signed in separate but identical copies. Each copy originally signed by the authorized signatory of a Party, together with the other originally signed counterparts, shall constitute an entire agreement.
- g. Each Party shall bear the cost of notarization in relation to their respective signatories.
- h. This Agreement shall commence upon signing by both Parties.

IN WITNESS WHEREOF, the parties hereby affix their signatures this ____ day of ____, 20__ at _____, Philippines.

NOTARIZED MEMORANDUM OF AGREEMENT

Know All Men By These Presents:

This MEMORANDUM OF AGREEMENT (hereinafter referred to as "Agreement") is made and entered into this 5TH day of Feb, 2024, in the Municipality of Taytay, Province of Rizal, by and between:

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES, a government educational institution with principal address at Anonas St., Sta. Mesa, Manila, duly represented by its Vice President for Academic Affairs, **DR. EMANUEL C. DE GUZMAN**, hereinafter referred to as the "**UNIVERSITY**";

-and-

MUNICIPAL GOVERNMENT OF TAYTAY, PROVINCE OF RIZAL, a government office duly organized and existing under and by virtue of the laws of the Republic of the Philippines, with principal address at Don Hilario Avenue, Club Manila East Compound, Barangay San Juan, Taytay, Rizal duly represented by its Municipal Mayor, **ALLAN MARTINE S. DE LEON, MPA**, who is duly authorized to sign and enter into this Agreement for and on behalf of the Municipal Government by virtue of **Sangguniang Bayan Resolution No. 128, Series of 2022**, hereinafter referred to as the "**Host Training Establishment**" or "**HTE**".

The **UNIVERSITY** and the **HTE** shall be referred to individually as a "**Party**" and collectively as the "**Parties**".

WITNESSETH:

WHEREAS, the Commission on Higher Education ("CHED"), on 29 August 2022, issued **CHED Memorandum Order No. 09, Series of 2022**, also known as the "Updated Guidelines on the Implementation of Face-to-Face Classes to Prevent and Mitigate COVID-19 Infections in Higher Education." The CMO states that off-campus activities for the completion of course requirements such as internship/practicum/training are allowed subject to the approval of the Local Government Unit (LGU), where off-campus activities will be held. It also states that Higher Education Institutions (HEIs) are encouraged to coordinate with their partner institutions to allow unvaccinated students to participate in OJT/internship/fieldwork/practicum;

WHEREAS, pursuant to the aforementioned memorandum, the Office of the Vice President for Academic Affairs ("OVPA"), on 13 October 2022, issued **Memorandum Order No. 11, Series of 2022**, which states that effective the first semester of the academic year 2022-2023, in-person or onsite on-the-job training internship is resumed, subject to the health protocols and alert level of the local government unit where the HTE is situated. It also states that online/virtual and work-from-home arrangements of training are still allowed;

WHEREAS, the **UNIVERSITY**, has established an Internship Program as part of its curriculum. The program is designed to supplement the learnings and to train students to become competitive and technologically innovative professionals through actual exposure to a professional workplace or through the online platform to address the new normal brought about by COVID-19;

WHEREAS, the **HTE** supports this program and is willing to give the students of the **UNIVERSITY** course-related work assignments and expose them to actual learning experiences;

NOW, THEREFORE, for in consideration of the foregoing premises, the parties hereby bind themselves to undertake this Agreement under the following terms and conditions:

A. Responsibilities of the University

1. The University shall instruct the College to conduct pre-internship orientation for the student intern, as a pre-requisite to his/her deployment to Internship venues, on work environment issues, including but not limited to, proper work ethics and laws against sexual harassment.
2. The University shall take appropriate action on any complaint against the student intern in accordance with its policies. It may unilaterally withdraw the student intern who is found to misbehave and/or act in defiance of existing standards, rules, and regulations of the HTE and impose the necessary University sanctions against the said student intern.
3. The University shall develop an Internship Plan for the student intern specifying objectives, knowledge, and competencies that the student intern should acquire in each learning area, assignment, and/or activity covered by the Internship Plan

4. The University shall issue a final grade to the student intern upon completion of the requirements within the prescribed period in accordance with its regulations on the grading system and performance assessment of the HTE.

B. Responsibilities of the HTE through its Human Resource Management Office ("HRMO")

1. The HTE shall commit to take in the student intern to undergo the Internship Program consistent with the requirements of the University.
2. The HTE shall orient the student intern on the standard rules and regulations of their establishment.
3. The HTE shall provide free relevant instruction, exposure, and training to the student intern, consistent with its policies, rules, and regulations. It shall treat the student intern in a professional manner, and shall ensure that the student intern, in the course of the internship, shall not be exposed to any form of harassment unethical practice or tasks and work assignments that are unreasonably risky, dangerous or unrelated to the purposes of the internship Program
4. The HTE shall issue a Certificate of Completion to the student intern within ten (10) working days after the completion of the intership.

C. Responsibilities of the Student Intern

1. The student intern shall execute an Internship Agreement with the HTE which includes the notarized written consent of the parent/guardian allowing his/her son/daughter to undergo the Internship Program with the HTE.
2. The student inter shall maintain confidentiality, when and where appropriate, during and after the internship period of all the data, business, or trade secrets where such information is not within the public domain and is indicated and understood as confidential
3. The student intern shall adhere to the existing rules and regulations of the HTE including the proper use of tools, instruments, machines, and equipment.
4. The student intern shall be personally responsible for any and all liabilities arising from gross negligence in the performance of his/her duties and functions while under the internship.

D. General Provisions

1. The OJT and Quality Assurance Coordinator/Faculty Adviser shall determine the duration of the internship and shall inform the HTE of the same through an
 1. endorsement letter.
 2. The internship shall be for a maximum of eight (8) hours per day, between 8:00 am to 5:00 pm, Mondays to Fridays only.
 3. The student intern shall not be subjected to mandatory overtime (OT) nor be required to work during holidays.
 4. The HTE is not obliged to employ the student intern upon completion of the internship. The HTE, however, upon consultation with the University, may invite qualified students to submit themselves to examinations, Interviews, and file pertinent documents in support of their application.
 5. The Parties shall claim co-ownership for whatever output/result/technologies generated from the internship that will merit intellectual property application, publications, or use.
 6. Both Parties shall hold each Party free and harmless from any liability, loss, or damage which may arise as a result of either Party's ordinary performance of its obligations under this Agreement, including those caused by fortuitous events or acts of God.
 7. Each Party shall, in accordance with Republic Act No. 10173, otherwise known as the "Data Privacy Act of 2012", its Implementing Rules and Regulations ("IRR"), issuances of the National Privacy Commission (NPC"), and other relevant data protection and privacy laws, ensure that appropriate organizational, physical, and technical security measures are set in place to maintain the confidentiality, integrity, and security of all personal data that may come to its knowledge or possession by reason of any provision by this Agreement, and that its employees, agents, representatives, or any person acting under its authority shall hold personal information under strict confidentiality at all times.

E. Monitoring and Compliance

The Parties shall mutually monitor the adherence and compliance of their counter-party. Any lapse or breach of obligations shall be brought to the attention of the other through notices to their respective representatives.

The Parties agree to settle issues, lapses, and breaches of obligations through amicable negotiations. However, if any of the above-mentioned continue after three (3) consecutive events and notices, the offended Party, as a matter of

right given and agreed to in this Agreement, may remove any or all contributions to this endeavor and rescind this Agreement.

F. Relationship

There shall be no employee-employer or principal-agency relationship between the HTE, the University, or its student interns.

Apart from being constituted as a party in the implementation of this Agreement, nothing in this Agreement shall be deemed to constitute a partnership, joint venture between the Parties, or a merger of their assets or their fiscal and other liabilities or undertaking. Neither Party shall have the right to bind the other Party, except as expressly provided for herein.

The employees of the HTE and the University shall remain their respective employees. All liabilities and obligations emanating from the employer-employee relationship of the respective Parties shall be solely shouldered by the respective employers.

G. Confidentiality

All information, data, and related documentation, in whatever form provided, recorded, or unrecorded, which the Parties may furnish or have furnished with each other in connection to this Agreement shall:

- a. Solely be used for the purpose for which it was furnished; and b.
- b. Be protected and treated in the strictest confidence.

Each Party agrees to hold in strict confidence any confidential information disclosed to or obtained by it, and shall use such confidential information only in connection with the purposes of developing, implementing, and operationalizing the Program covered by this Agreement.

For purposes of this Agreement, "confidential information" shall mean any and all information disclosed by a Party hereto, in any manner, that, as a result of, or in connection with this Agreement, by its nature, is considered proprietary and confidential, regardless of whether such Information is specifically labeled or described as such. In case of doubt as to whether the particular information is confidential, both Parties shall treat all information received pursuant to this Agreement as confidential information, and shall be subjected to the confidentiality required under this Agreement. Confidential information shall, however, not include the following:

- a) Information that is generally available to the public, other than as a result of disclosure in violation of this Agreement;
- b) Information that is available to the other Party on non-confidential basis without an express restriction on disclosure;
- c) Information which is required to be disclosed by any court, tribunal or regulatory authority or by any requirement of law, legal process or regulation; or
- d) Information that a Party expressly agrees to in writing which may be disclosed by the other Party to third parties.

Both Parties agree to implement and enforce reasonable security measures to protect all confidential information that either Party, including its officers, representatives or employees, may receive pursuant to this Agreement. This obligation of confidentiality and restricted use shall survive this Agreement, and shall remain in full force and effect without any limitation as to time.

H. Termination, Entirety of the Agreement, Period, and Governing Law

1. The Parties shall have the right to pre-terminate the internship contemplated by this Agreement by serving a written notice to the other party at least thirty (30) days prior to the intended date of termination and based on the following grounds:

- a. The student intern substantially violates the rules and regulations of HTE, or in cases of serious misconduct of the student intern;
- b. The HTE is proven to fail in providing the safety of the student intern and quality of training contemplated by this Agreement; and
- c. There is any material violation of the foregoing covenants that will warrant the cancellation of this Agreement.

PROVIDED, that the terminating party shall formally inform the OJT and Quality Assurance Coordinator/Faculty Adviser of the grievance before any decision to terminate is made and finalized. The OJT and Quality Assurance Coordinator /Faculty Adviser shall intervene to rectify the situation in the interest of all parties concerned.

2. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter hereof. It excludes and supersedes everything else which has occurred between the parties whether written or oral, including all other communication with respect to the subject matter hereof. Any amendment hereto shall be mutually agreed upon in writing by the Parties.

3. The provisions of this Agreement shall, at all times, be subject to existing and subsequent ordinances, resolutions, executive orders and other issuances of the HTE, all amendments and/or modifications the Parties may subsequently agree upon, and directives from duly authorized government regulatory bodies in the exercise of their jurisdiction. Any modification, revision, or amendment hereto agreed upon by the Parties shall become valid and binding only when the same is in writing and signed by both Parties.

4. This Agreement shall take effect on the date of signing by both parties and shall continue to be in force for a period of three (3) years unless earlier terminated for just cause, by either Party, after thirty (30) days prior written notice to the other Party

5. The three-year period shall be applicable to cover other prospective student interns who may likewise be required to undergo an internship with the HTE during the effectivity of this Agreement.

6. Any renewal of this Agreement shall be through the mutual written consent of both parties.

7. This Agreement shall be governed by and construed in accordance with the laws of the Republic of the Philippines.

IN WITNESS WHEREOF, the parties hereby affix their signatures this 5TH day of FEB, 2024 at _____, Philippines.

TRAINEE PERFORMANCE EVALUATION

EVALUATION INSTRUMENT FOR STUDENT-INTERN

Intern's Name Cydney B. Delos Reyes
Academic Program Diploma in Computer Engineering Technology
Section 3-3
Host Training Municipality of Taytay Province of Rizal
Establishment Name
Intern's Job Description Assist in the development of internal processes and lecture materials for the office.
Evaluator's Name Enrico Marquez
Position Section Manager / Institute Administrator
E-mail Address Enrico.marquez1994@gmail.com
Date of Evaluation

Evaluator's Signature 

CHARACTER (50%)	MAXIMUM RATING TO BE GIVEN	RATING
1. The intern can be trusted with important and confidential information.	10%	10%
2. The intern shows courtesy and transparency in his/her dealings with superiors and colleagues.	10%	10%
3. The intern displays responsibility and accountability in doing the assigned tasks.	10%	10%
4. The intern manifests resiliency during critical and difficult circumstances.	10%	10%
5. The intern shows commitment and hard work in the workplace.	10%	10%
COMPETENCE (50%)		
6. The intern displays thoroughness, accuracy, and completeness in work output.	5%	5%
7. The intern practices timeliness in the completion of assigned tasks.	5%	5%
8. The intern manifests sound decision-making and logical thinking in dealing with simple problems related to his/her tasks.	10%	9%
9. The intern exhibits initiative and perseverance in the performance of duties and responsibilities.	10%	10%
10. The intern meets the technical skills required of the student intern by the HTE: Please specify: <u>Developing and programming of system (online portal)</u>	15% (distribution of this rating depends on skills specified)	15%
11. The intern shows great potential for employment in the company.	5%	5%
TOTAL RATING (100%)		99%

Further Recommendation for the Student -Intern's Growth: I recommended tha student-intern to continue her good performance in assigned tasks, maintain proactive attitude, and stay open to learning opportunities for further growth.

Name of Evaluator : Enrico Marquez

HOST TRAINING ESTABLISHMENT PERFORMANCE EVALUATION

EVALUATION INSTRUMENT for HOST TRAINING ESTABLISHMENT

Name of HTE : MUNICIPALITY OF TAYTAY PROVINCE OF RIZAL
Address : DON HILARIO CRUZ AVENUE, CME COMPOUND, BARANGAY SAN JUAN, TAYTAY, RIZAL
Nature of Business: GOVERNMENT AGENCY
Legend:

Descriptive:	5 – Fully Compliant (91-100%)	Numerical:	WEIGHTED MEAN	INTERPRETATION
	4 – Compliant (66%-90%)			
	3 – Somewhat Compliant (41%-65%)			
	2 – Not Compliant (11%-40%)			
	1 – Fully Not Compliant (0%-10%)			
			4.51 – 5.00	Full Compliant
			3.51– 4.50	Compliant
			2.51 – 3.50	Somewhat Compliant
			1.51 – 2.50	Not Compliant

Performance Indicators	5	4	3	2	1	Remarks
A. Provides comprehensive Internship Plan to student-interns (company profile, objectives, job description, knowledge, and competencies, journal/DTR, list of equivalencies, and focal person)						Full Compliant
B. Orients student-interns on the standard rules and regulations, policies, potential projects, and respective work assignments in the HTE						Full Compliant
C. Commits to let student-interns undergo an Internship Program consistent with the requirements of the University: <i>Online Training (web-based)</i> or be subjected to <i>Work-from-Home</i> arrangements as delegated by the HTE and under the policies of the University						Full Compliant
D. Ensures that student-interns are rendering the training hours within the regular working hours						Full Compliant
E. Provides free relevant instruction, exposure, and training to the student-intern, consistent with its policies, rules, and regulations						Full Compliant
F. Treats the student-interns in a professional manner, and ensures that the student-interns are not exposed to any form of harassment/unethical practices or tasks and work assignments that are unreasonably risky, dangerous, or unrelated to the purposes of the Internship Program						Full Compliant
G. Observes safety measures for the student-interns and ensures quality of training						Full Compliant
H. Issues Certificate of Completion to the student-interns not later than two weeks after the completion of internship						Full Compliant
I. Attends appreciation dialogue/exit conference/culminating activity conducted by the College/Branch/Satellite Campuses						Full Compliant

Strength/s:

The workplace provides a positive atmosphere that makes it easier to learn and perform assigned tasks

Area/s Needing Improvement:

Offer more hands-on activities and opportunities for interns to apply their knowledge and skills.

Recommendation/s:

Continue guiding interns with constructive feedback to help them improve their skills and confidence.

COMPREHENSIVE RESUME

DELOS REYES, CYDNEY B.

cydneydelos@gmail.com
(+63) 9947017058
Bagong Pagasa, Barangay Sta. Ana, Taytay, Rizal

OBJECTIVE To obtain an entry-level position where I can apply my technical knowledge in computer systems, data handling, and administrative support, while developing my skills and contributing to the efficiency and growth of the organization.

SKILLS & COMPETENCIES

- Computer System Servicing (TESDA NC II)
- Basic Networking (Cisco Packet Tracer)
- Front-End Development (HTML, CSS, JavaScript)
- Basic Back-End Development (Java, PHP)
- Problem Solving
- Adaptability
- Time Management
- Documentation

WORK EXPERIENCE **Web Developer & Inspector** July 2025 – September 2025
Department of Labor and Employment (DOLE) Laguna Provincial Office
Government Internship Program (GIP), Engineering Department

- Developed a digital monitoring system to improve the documentation and retrieval of official records.
- Assisted in the technical verification and issuance of permits for clients.
- Streamlined administrative workflows by organizing engineering department records for easier accessibility.

EDUCATION **Diploma in Computer Engineering Technology** 2023 - 2026
Polytechnic University of the Philippines - Sta. Mesa, Manila

General Academic Strand (GAS) 2021 - 2023
Southern Masbate Roosevelt College Inc.

- With Honors
- Best in Research Paper

PROJECTS

E-commerce Website (Front-End)
Designed and developed a responsive online store interface

Diabetes Prediction Web App
Built a machine learning-based health prediction system

Laundry Management System
Developed a staff system with front-end and back-end functionality

Personal Portfolio Website
Showcases web development and VA-related projects

CERTIFICATIONS

COMPUTER SYSTEM SERVICING NC II 2024 - 2027
Technical Education and Skills Development Authority (TESDA)
